

I listen to radio station, K-LOVE, which is heard on a local FM translator. It is a wonderful station that plays uplifting music.

If K-Love were to be displaced by an LPFM broadcaster providing other programming, our community would be minus a source of inspiration, that we desperately need in today's world.

K-Love is a definite asset to our community. There is no fear of hearing vulgar or violent lyrics on K-LOVE. The music is very uplifting. The music is contemporary which appeals to teens and adults alike. Another reason that I like K-LOVE so much is that it lifts my spirit especially in congested traffic.
